Comments about [Soliloquy For Lilith](#) - Nurse With Wound

Sardleem

I'd disagree with those that say the quality is good, this is a very crackly pressing, its a shame they didn't make the same effort with the vinyl that they made with the packaging.

the monster

The packaging is actually quite horrible. Once you manage to remove the records from the very tight box, you will hardly be able to squeeze them back without struggle. 1mm more room vertically and half a mm horizontally would fix this.

Ynneig

Info for fans from Europe: available on amazon uk right now for 46gbp!

Meri

thanks made, just ordered GBP 49.99 = ~\$70GBP 60 = ~\$84so \$75 is within reason

Agarus

it was \$75 on experimedia this morning. I don't think that was inflated looking at others saying 60gbp on other sites

Fenritaur

About 60+ euros not counting P&P..My guess is some copies will be available thru various shops or distros...

Tamesya

What does the extra LP consist of? Is it ndeed from hte same 1988 session as stated?

Macill

It's all fine, and it may very well be the extra material from the 3CD version, but I just need solid confirmation if that's the case. I can't find the info anywhere. :)

Jerdodov

I haven't listened to it yet but I'd safely assume it's in the same vein.

Zan

My guess is that the fourth vinyl has the same stuff as the last disc of the 3CD edition.

Utchanat

And how is it? Is it similar two the 6 previous sides?

Kulabandis

from the Nurse website: This edition has been expanded to a 4 LP vinyl set, contains the original 3 LPs plus a 40 minute piece from the original sessions, previously unreleased on vinyl.

Quashant

Great quality overall if anyone is wondering. I would prefer gold ink but whatever. Anyone knows if this is limited?

Samut

Wow. Four LPs of Lilith's Soliloquys. I'm not sure if this is overkill or the summation of all wishes fulfilled.
