## Comments about [I Love My Lady](#) - Johnny Mathis

Onoxyleili

If I'm being perfectly honest, this album sounds like an unfinished demo. The wonderfully full, Chic sound for which they were/are so venerated simply isn't here. It sounds thin and, well, like a demo! Perhaps that's why it was left unreleased for so many years? Perhaps it was meant to be over dubbed for release back in the day which, as it was shelved, never occurred? Just my opinion, but even though some of these songs have much promise, they just don't have the polish and panache of their work from this era. Still, it's a nice album to have. By the way, the clear vinyl is ultra clear! I thought it might be 'smoky' and opaque, but no. It's as clear as glass with some swirls of black mixed in.

Zan

The CHIC sound is here...Not sure what you are talking about. Demos? Hardly. This is a wonderfully produced & arranged album--Great playing, singing, songwriting.

Anayalore

It's sad that there seems to be a pressing fault for the B side. A real shame because this was one of the 2018 RSD releases I really wanted. Ah well, maybe it will get a stand alone CD release some day soon...

Nuadabandis

I actually invested in the UK pressing and .... perfect! No pressing irregularities of the B side at all. Maybe that's unique to the American issue?

Lonesome Orange Kid

Yes. Couldn't they have checked the test pressings? Side B is terribly off-center.

Thundershaper

Please check Side B..3 copies I have found have this side badly off-center.

Oso

Nope...you just have not NOTICED it. Put on side B and watch your tonearm.

Lavivan

Put on Side B, and make a short video. Upload it to youtube and post the link here. I really need to see that your copy is perfectly centered on Side B. thanks.

Magis

Well...it's well over 3 copies that have an off-centered b-side. So you don't see your tone arm swaying at all on side B?

Nuadador

My pressing is fine on both sides. I have not noticed any problem whatsoever.

Anen

I have this album MP3 already but I WANT IT ON VINYL DAMMIT LOL. Pretty much if you like the Chic classic "Good Times", "We Are Family" and "I Want Your Love" type production with funky bass, live piano arrangements, funky rhythm guitar sections, full orchestra and stop and go disco like drums then you will love this. My personal favorite is the track "I Love My Lady" which has a perfect latin tinged sound that had me dancing all over the place. His voice fits so perfectly. Another standout track is "Take Me" and "It's Alright To Love Me" with full on background singers. I give the album a solid 4/5. Its not perfect (some tracks sound dated even for its time, not much personality from Johnny himself) however it is a great release and exposed me to him as an artist.

Vinainl

Be careful before buying a copy. Side B is pressed badly off-center.

Wafi

Nice edition of this long sought after release. Lovely production with pure Chic DNA. Vinyl edition warmly remastered but preserving the analog feel. Listening to this now almost 40 yrs since it was vaulted, one can only speculate on what might have been. Would "Something to Sing About", or "Judy", or "It's Alright To Love Me" have become perennial radio staples like "Upside Down"? One never knows, does one? In any case so happy to add this to the collection.

Lyrtois

blaksoulfire The typo has been corrected! Glad I could give you some amusement.... I guess I should have thanked you for the thoughtful review, also. Thanks! I am glad, however, that this typo is preserved below.

Hugighma

The typo has been corrected! Glad I could give you some amusement....

Dominator

blaksoulfire Nice edition of this long sought after release. Lovely production with pure Chic DNA. Vinyl edition warmly remastered but preserving the analog feel. Listening to this now almost 40 yrs since it was vaulted, one can only speculate on what might have been. Would "Something to Sing About", or "Judy", or "It's Alright To Love Me" have become perineal radio staples like "Upside Down"? One never knows, does one? In any case so happy to add this to the collection. "Perineal" radio staples? Best example of miswording in recent memory. Thanks for the laughs!

Modifyn

You took the words out of my mouth. Very eloquently put, and I agree 100%.

ndup

This incredible album FINALLY gets an official release!! Even though 4 of these songs were released

on various compilations some years back, here we have the entire album, and on VINYL. Hard to believe Columbia rejected such a nice album back then. Chic's arrangements with Johnny's voice was a great combo. The vinyl pressing is very nice--good sonics, although my 2 copies have side 2 off-center.
